**Age Group:** 2 to 12 years

**Use Zone:** 18' 6" x 30' 8"

### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

The slide is perhaps the most recognizable staple of any playground, and the 6-foot Double Straight Sectional Freestanding Slide delivers double the fun for kids ages 2-12. The Double Freestanding Slide is made from rotationally-molded plastic, making it durable and resistant to discoloration from the sun. The material used for this slide also makes it more resistant to overheating, particularly during the summer when the sun beats down on equipment for hours at a time. Additionally, this double slide structure features perforated steel stairs and galvanized steel rails to help kids maintain their balance as they enter the slide safely. The stairs are wide enough to accommodate two children at once, lessening the risk of them bumping into each other on the way up. The slides run parallel, encouraging kids to slide together or maybe engage in races down to the bottom. The Double Straight Sectional Freestanding Slide is a wonderful addition to any playground, and will surely delight kids of all ages.
