COMPLIES With:

ASTM F1487-17
CPSC PUB #325

The 8 Feet Elite Series 5 Inch Single Post Swing with Shade is constructed from powder-coated galvanized steel, making it an ideal, long-lasting feature for any outdoor area. Putting in a swing set adds value to any park, school, daycare or church playground, especially one with a shade installed. Getting this post swing with a shade eliminates the burden of having to search for an appropriate shade add-on with correct dimensions. This package combines the two products, making it an easy choice. The ten foot wide canopy is built into the swing over the steel frame, which helps keep children cool in the heat and protects from the sun's UV rays. Kids can swing for as long as they wish without worry of getting sunburnt or overheated. Increase children's spatial awareness and help them develop their gross motor skills by introducing the 8 Feet Elite Series 5 Inch Single Post Swing With Shade to your outdoor site.
