Capacity: 46-52

Footprint: 46' 7" X 23' 4"

Use Zone: 58' 7" X 23' 4"

COMPLIES With:

ASTM F1487-17

CPSC PUB #325

The Wavelength Net Climber Course is a unique structure that enables various types of activities to be enjoyed. The first and most obvious of these is climbing. The Wavelength Net Climber Course features four different vertical climbing nets, each made of strong, nylon-covered steel ropes, which won't snap or fray under pressure. Additionally, each of the vertical climbing nets can be ascended by users, who will love climbing atop the structure with their friends and peers. Aside from climbing nets, the Wavelength Net Climber Course also features a spinner on one end and pebble climbers on the other. Lastly, the two halves of the Wavelength Net Climber Course are connected by a suspended balance beam, which functions as a low-risk tightrope. There's no shortage of things to do on the Wavelength Net Climber Course, and kids will love the variety of activities this structure facilitates.
