

## Launch Pad Climbing Rope Platform

**Price \$110,164.00**

### Highlights:

- Constructed using upright and horizontal steel bars
- Made from durable, weather-resistant materials
- Allows several children at once to play
- Helps children develop their balance skills

**Age Group:** 5 to 12 years

**Capacity:** 85-105

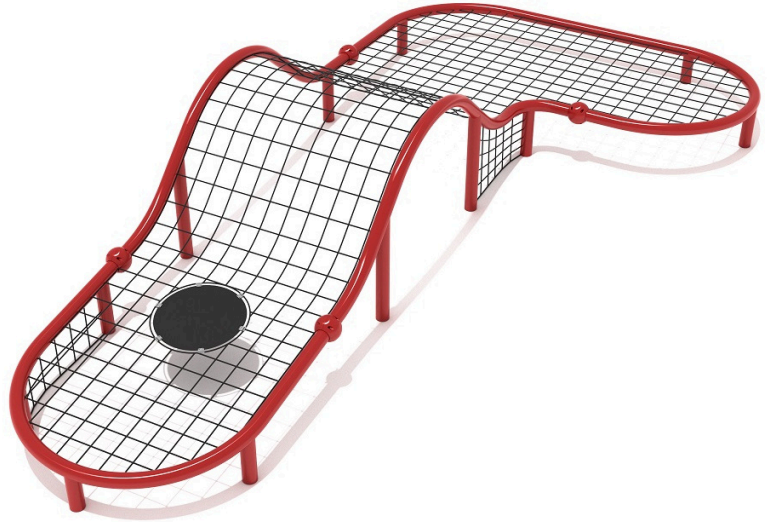

**Footprint:** 38' 2" X 19' 5"

**Use Zone:** 50' 2" X 31' 5"

### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

For young children, it's important to develop and maintain balance and agility. One of the best ways to achieve this is to give children a chance to walk on different types of surfaces. The Launch Pad Climbing Rope Platform offers exactly this, utilizing nylon-covered steel wires that are thick and built to last. Additionally, the Launch Pad Climbing Rope Platform features a slight wave in the center of the structure, which kids can climb up and down, further enhancing their balance improvement experience. The Launch Pad Climbing Rope Platform can hold several children at once, so collaborative play is always doable. Both vertical and horizontal steel bars support the structure on all sides, which increase both the height and surface area of the structure. Add the Launch Pad Climbing Rope Platform to your playground or outdoor space, and kids will flock to it.
