Price \$4,035.00

Highlights:

- Four posts create a sturdy structure
- Available in multiple fabric colors
- Choose the mount to work with your situation
- Keeps an area protected and cool

Use the Rectangular Shade Shelter to protect children and equipment from the sun. The use of a shade greatly reduces the risk of sunburn as children play under the safety of the fabric canopy. The shade is also beneficial to use over playground equipment as it protects the equipment from any damage the sun may cause. Shades also prevent children from getting burned on equipment that has been sitting in the sun. The Rectangular Shade Shelter with 8 feet high Entrance Height is available in a large variety of sizes to fit any venue. The different sizes allow the shade to cover large picnic areas, play structures, freestanding equipment, sand boxes, pools, and more. You have the option of choosing from various colors of fabric and if you would like to include glide elbows. Glide elbows are beneficial in the installation and removal of the fabric as it makes the process much easier.
