**Use Zone:** 36' 4" X 80' 11"

### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

Whether your playground users love climbing up single ropes or climbing nets, the Celestial Channel Climbing Net Course is a great fit for everyone. The netting consists of steel cables covered in nylon that are gentle on little hands but strong enough to hold more than 50 kids at once. The curved climbing nets can effectively serve as monkey bars, while the vertical climbing walls enable kids to the highest points of this structure. The Celestial Channel Climbing Net Course is lined from front to back by galvanized steel bars, which ensure the safety and security of all climbers. Additionally, the Celestial Channel Climbing Net Course has a spinner at its end, which offers a break from the climbing-related activities the course offers. This imaginative feature is full of challenging elements and serves as an excellent centerpiece for any play area for elementary-age children. Add the Celestial Channel Climbing Net Course to your playground to facilitate unique, memorable climbing experiences.
