

## Solar Powered Bench with Perforated Shade

**MSRP \$11,033.00**

**SALE \$9,379.00**

### Highlights:

- Comes in surface mount style only
- Offers multiple, solar-powered USB charging ports
- Features 6 foot long bench coated in textured polyethylene
- Includes a perforated shade to maximize comfort

A great option for office parks and college campuses, the Solar Powered Bench with Perforated Shade is an environmentally friendly charging station that doubles as a comfortable shaded area. With its modern, streamlined design, the Solar Powered Bench with Perforated Shade allows users to avoid the sun while charging their phone or other USB-based devices. Whether users wish to sit and charge their devices for five minutes or an hour, the dual 3.0 rapid charge USB ports ensure that they get as much out of their charge time as possible. The Solar Powered Bench is coated with textured polyethylene, which, combined with built-in wet and over-temperature protection, makes the Solar Powered Bench with Perforated Shade suitable for nearly any outdoor environment, regardless of temperature or inclement weather. With its built-in 60-watt polycrystalline solar panel, the Solar Powered Bench with Perforated Shade will provide more than enough power to keep your users' devices charged.
