COMPLIES With:

ASTM F1487-17

CPSC PUB #325

ADA Compliant

The Rocky Ripple Play System is a massive commercial play structure from PlaygroundEquipment.com. Boasting a wide assortment of play elements from slides, to bongos, to climbers, this Play System has everything kids could ever need for an afternoon of fun. At Rocky Ripple's base, kids can take advantage of the various ground-level activities. The Bongos and Single Drum allow kids to create their own percussive tunes and even collaborate with their friends, while the Ship's Wheel enables kids to envision themselves as the captain of their own seafaring ship. Ascending the Rocky Ripple Play System can be achieved via the Pod Climber, the Figure Climber, or the Clover Climber, each facilitating its own distinct type of climbing. Once there, your playground-goers will immediately notice the three Funnel Tube Bridges, which serve to connect the four primary aspects of the Play System. The Right and Left Turn Slides complete Rocky Ripple, and allow kids to whoosh safely back down to the ground to begin the fun anew.
