COMPLIES With:

ASTM F1487-17

CPSC PUB #325

ADA Compliant

Mermaid's Marina has everything a kid could ever want in a play structure. Whether it's slides, vertical climbers, horizontal climbers, or a two-part drum, Mermaid's Marina has something for every child on the playground. Kids can choose from the four- or six-foot slide, as well as three different climbers. At the base of Mermaid's Marina are a ship's wheel and a drum, both of which are sure to entertain kids on the playground. As always, safety is a focal point; the guardrails help ensure that kids won't fall off from the taller heights of this structure. Perforated steel posts support Mermaid's Marina and hold up the various parts of the structure. The rock climbing wall is a great addition to Mermaid's Marina, as it allows kids to imagine they're climbing up a steep cliff or rocky outcropping. This is a multifaceted play structure that will have kids coming back to play for years to come.
