**Use Zone:** 14' 0" x 19' 6"

### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

The Angled Pull Slider features an aluminum sliding board that, in concert with the grip bar above, provides a great workout for young kids who want a break from traditional playground or outdoor fitness equipment. Part of PlaygroundEquipment.com's line of kids outdoor fitness equipment, the Angled Pull Slider is meant to exercise grip strength as well as biceps and triceps. With proper use, the core will also get a decent workout, and once kids are finished climbing their way up the aluminum board, they can slide safely back down to the ground or use their upper body muscles to climb back down. The Angled Pull Slider makes for a great complement to other outdoor fitness equipment, and can be used either by itself or as part of a larger outdoor fitness circuit.
