MSRP \$5,364.00

SALE \$4,560.00

Age Group: 2 to 5 years

Footprint: 2' long x 18' wide x 5' high

Use Zone: 14' x 30'

A fun piece of playground equipment for younger children, the 4-Section Half Bubble Wall Climber, has four interconnecting bubble wall panels mounted on powder-coated columns, creating a fun freestanding climber. Each bubble creates a perfect hole to climb on, making climbing easy enough for younger kids, ages two to five, to enjoy. Children enjoy navigating across the bubble panels, this way they have fun while also developing climbing skills and giving their muscles a workout. These bubble panels are also customizable to create a ground to deck climber, which adds to the fun and excitement, and can fuel imaginative young minds to create exciting adventures with friends. Parents love that it was developed with child safety standards in mind, the 4-Section Half Bubble Wall Climber is ASTM and CPSC compliant.
