---

Pickleball is America's fastest growing sport, so make sure you are ready to play by getting the very best equipment available to you! There are paddles and equipment available for all different skill levels, no matter if you are playing the sport for the first time, or you are a seasoned professional! The Apex Pickleball Paddle is a multi-functional pickleball paddle that offers many diverse features, making it perfect for intermediate to advanced players. It is a mid-weight paddle with a good balance of power and control for every type of player. There is a soft, ultra-cushioned textured grip on the handle, making it easy to use and comfortable for long periods of play. The smooth, poly surface of the paddle adds to, and allows you to control, the ball's spin. The paddle features the ProPolyCore2 for optimum control and vibration dampening technology. This paddle also meets all of the USAPA Tournament guidelines, making it the perfect choice for dedicated pickleball players.
