Slither on into the Serpent Saloon for hours and hours of a hiss'n' good time! This new addition to PlaygroundEquipment.com's Castle Series has so many different ways to play and interact. On the ground level, there is a store panel where kids can use their imagination to pretend to run their very own store (or Serpent Saloon!) with their friends! There is also a draw bridge climber, adding to the immersion of the castle themed structure. On the other side there is a castle rock wall climber for an added challenge for the bravest of adventurers! Once at the top of the play structure, there are several different options of how to descend. On one side of the structure, there is a double slide that kids can ride down independently or with a friend. On the other side, there is a longer straight slide. The Serpent Saloon is a structure sure to encourage imaginative and adventurous play for every kid that enters it.
