

## Expanded Steel Bench - 6'

**MSRP \$900.00**

**SALE \$693.00**

### Highlights:

- Inground mount promotes stability
- Contemporary, durable design
- Allows guests to relax for hours at a time
- Punched holes allow bench to remain cool and dry

### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

---

Made from commercial-grade PVC coated steel, the Expanded Steel Bench is built to stand the test of time. This inground-mounted site amenity makes a great addition to any outdoor area, particularly playgrounds, where parents and caretakers often need a place to sit and observe their young ones at play. The small, punched holes that adorn the Expanded Steel Bench serve two purposes: first, they promote airflow, allowing the bench to stay relatively cool on hot summer days; second, when heavy rainfall rears its ugly head, the holes allow water to pass through the bench and onto the ground, thereby preventing the accumulation of water on the bench. With its simple yet intuitive design, the Expanded Steel Bench is a no-brainer for outdoor spaces in need of permanent seating fixtures.
