ASTM F1487-17

CPSC PUB #325

ADA Compliant

The Choo-Choo Train Playhouse brings unique, imaginative fun to the playground. Far from a typical playhouse, this steam engine is designed especially for toddlers, and makes an excellent introduction to the playground around them. Since there are no rails telling this train where to go, kids are free to use their imagination and create their own journey, perhaps envisioning themselves as the conductor or simply a passenger aboard this colorful locomotive. The Choo-Choo Train Playhouse is made from durable polyethylene, making it relatively lightweight yet able to withstand the outdoor elements. It comes equipped with partial Tic Tac Toe Panels, which young children can spin around and play with while aboard the train. The Choo-Choo Train Playhouse adds a unique, creative twist to the playground, and is great for toddlers who've recently been introduced to the playground.
