- Powder coat frame
- In-ground mount only

From parks to college campuses, the table with integrated shade is a great amenity for any location. It provides relaxing seating with the comfort of shade. It features our 6-foot regal table with 8-foot seats and our 12.5' x 8' shade. The integrated shade provides comfort in many types of weather conditions, whether it is sunny or rainy outside. The shade is attached through a glide elbow for seamless installation and removal. The textured polyethylene tabletop and seats are tough, scratch-resistant, and mounted directly to the frame's two square columns on each side for security. The powder-coated frame is mounted in the ground and held in place with cement, giving the table's foundation high stability and making the structure very sturdy. This shaded table can be used for various purposes, such as playing games, doing homework, or having a lunch picnic. This table can be ordered in a variety of different colors.
