The C Hedge Plastic Climber is created by linking Tortoise panels to create a c-shaped hedge. The panels are available in many configurations and are available in a selection of colors. This playground climber is a freestanding climber that provides fun outdoor physical fitness activity to children from 2-12 years of age. The C Hedge Plastic Climber is the perfect tool for keeping kids interested in outdoor activity, which is essential to aid in the development of healthy habits. The tortoise-like characteristics of the panels are a fun way to liven up any playground; the uniqueness of this piece of playground equipment will nurture imagination and creative thinking in children. Designed for safety, durability, and sturdiness this climbing equipment is sure to be enjoyed for plenty of years to come.
