SALE \$3,092.00

Age Group: 5 to 12 years

Footprint: 3' long x 15' wide x 7' 3-7/8" high

Use Zone: 15' x 27'

The unique Camel Back Kids climber, created with elementary-aged children in mind, stands out with its distinctive double-hump design and deep rung arches. This multicolored marvel is an eye-catching addition to any playground that's sure to make kids flock to it! And its durable design prioritizes safety while encouraging kids to climb, explore, and conquer new heights.

Constructed from heavy-duty, powder-coated steel, the Camel Back climber is built to last and to maintain its vibrant look for years to come. It's also custom-painted to your specifications: Choose any of our 13 color options or any combination: People most commonly order the Camel Back climber in one solid color or as shown, with red ends, yellow humps, and blue in the middle, but we can customize yours however you'd like.

Incorporating climbers like the Camel Back into playgrounds offers numerous benefits for children. Climbing up and down is great exercise, and it also challenges children, promoting problem-solving, perseverance, and confidence as they navigate the structure. They'll develop cognitive skills like spatial awareness and strategic thinking as they enjoy emotional benefits like the joy of accomplishment and the thrill of taking on challenges. It also caters to a broad age range, from the tentative first climber to the seasoned playground adventurer, promoting an inclusive play experience.

The Camel Back Kids' Climber also complements existing playground structures, enhancing the overall play value of your space. [\[Read More\]](#)
