MSRP \$2,141.00

SALE \$1,820.00

Highlights:

- Utilizes in-ground mount
- Three different animal heads to choose from
- Great for photographs
- All necessary hardware included

When you take your dog outside, there are a lot of things that you could do. From walks to playing fetch, dogs love being active outdoors, and what better way to record this fun than with some photos? The BarkPark Safari Photo Booth Panel allows dog owners to get a picture of their furry friend as an elephant, a lion, or a giraffe, all animals that one would find on a great African safari. Simply by lifting the head of your dog into the photo booth's head slot, you can snap a picture of your favorite guy or gal looking positively wild. Add the Safari Photo Booth Panel to your dog park to give your patrons and their dogs something to use for photo opportunities.
