---

Designed for ages 2 to 12, the Child Adaptive Swing Seat allows children of various ability levels to have fun on the playground just like the rest of their peers. The Child Adaptive Swing Seat adds a layer of accessibility and inclusivity to your playground, and, while it's a great fit for kids of all ability levels, it's designed especially for children with disabilities as well as those who may not be as mobile as they're peers. This seat itself offers excellent comfort and support, and with the help of a friend to push, kids can utilize the Child Adaptive Swing Seat to its fullest potential, riding through the air to their hearts' content. Each seat comes complete with all the requisite hardware needed for installation, as well as chains and a harness.
