Use Zone: 16' 4" x 17' 6"

COMPLIES With:

ASTM F1487-17

CPSC PUB #325

The Free Standing Skylight Trunk Crawler Tube is a piece of commercial playground equipment that can serve multiple purposes. First, it can function as a bridge connecting two pieces of play equipment together, allowing kids to transition seamlessly between different parts of the playground. Next, the Skylight Trunk Crawler Tube makes a perfect hangout spot for kids who wish to have a modicum of privacy, or whether they desire a brief respite from the sun on a hot day. As the name suggests, this tunnel features a sizable skylight above it, so kids can still look up at the clouds as they lie down or sit inside the crawler tube. Sturdy and highly compact, the Free Standing Trunk Crawler Tube offers more than enough utility for children on the playground.
