The fun Criss Cross Plastic Climber is ideal for kids from 5-12 and is a perfect addition to any recreation area. Tortoise panels are connected into a crisscross pattern creating this unique look for this sturdy playground equipment. The crisscross configuration creates many curves, angles, and dips for tons of playground fun. Tortoise panels are very popular due to their unique look that draws children to want to play on them for hours. Endless outdoor fun is what you get with this climber. This unique piece of playground equipment makes it fun for kids to play outside and increase their fitness levels. This unit is available in many colors and configurations. It is made of quality materials, which ensures safety and durability. Compliant with both ASTM and CPSC playground safety standards the Criss Cross Plastic Climber is designed for commercial playground use.
