- Encourages collaborative play between kids
- Helps develop motor skills
- Requires very little space
- Can be used in a variety of environments

Age Group: 18 to 36 months

Capacity: 4

The perfect addition to your school or daycare, Carrington Carousel is a four-seat, wheeled merry-go-round that kids will love. Unlike typical merry-go-rounds, Carrington Carousel requires very little space to set up and use, and its compact nature is even better when you consider that it can hold up to four kids at once. What's more, its solid steel track can be laid on top of indoor mats, safety surfacing, and pour-in-place playground surfacing. This means that it can be a solid addition to both outdoor playgrounds as well as indoor play areas. Carrington Carousel is a great way for adults to get involved with their kids' playtime as well, since it requires a bigger person to push in order for the momentum to carry the riders around. Add Carrington Carousel to your playground or indoor play area and the kids who use it are sure to love it.
