Great for schools, daycares, and other indoor areas, Up in the Clouds is an indoor playground that's replete with thrilling features. On the ground level, kids can stimulate their minds with the Tic-Tac-Toe Panel as well as the GYRO Activity Panel, both of which kids can use with their friends. Making their way up to the second level can be achieved via the 7-Level Deck Climb, and Up in the Clouds, kids will find the Turbo Helicopter as well as the Jet, both of which feature their own steering wheels. These amenities make great, imaginative activities for kids to engage in with their friends, and once done, children can slide back down to the ground floor using the Enclosed Spiral Tube Slide. There's no shortage of exciting play elements to be used on Up in the Clouds. Please note: Surfacing tiles and ramps not included.
