**Capacity:** 14

### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

Aquatic Adventure is an indoor playground that will delight the children who use it. Featuring several exciting features, Aquatic Adventure makes kids feel like they're on the underwater trek of a lifetime. Indoor playgrounds are a great way to get kids active, especially in scenarios where going outdoors and playing outside isn't possible, such as rainy days. They allow adults to maintain closer supervision of their children, and are a great way to liven up their days. Starting on the ground floor, kids can stimulate their minds using the Gyro Activity Panel and the Ball Turn Activity Panel. The star attraction of Aquatic Adventure is the Submarine Crawl, which features a window and several portholes through which children can gaze out at their peers below. When ready, kids can slide back down to the ground using the Enclosed Curved Tube Slide. Please note: Surfacing tiles and ramps not included.
