CPSC PUB #325

ADA Compliant

Harmonious Hillcrest is an all-in-one indoor playground chock full of features that kids will adore. Among the various selling points of indoor playgrounds, one of the foremost is that they allow for the same sorts of active fun as outdoor playgrounds, but without being bound by weather conditions. In other words, indoor playgrounds will always be there, rain or shine, for children who are eager to play. Starting on the floor, kids can keep themselves entertained with the Ball Turn Activity Panel as well as the Tic-Tac-Toe Activity Panel, both of which can be used in concert with their peers. Moving on up the 6-Level Deck Climb, children can hang out in the T-Tube Junction, sit under the roof, or whoosh back down to the ground using the Enclosed Curved Tube Slide. Lastly, the Sneaker Keeper is a useful amenity for storing kids' shoes and other possessions so they don't become tripping hazards. Harmonious Hillcrest will make a lovely addition to schools and daycares everywhere. Please note: Surfacing tiles and ramps not included.
