The Daisy Infant Play Center is a cute, compact play space that's perfect for infants and toddlers! This daisy-themed play area may seem simple, but there are quite a few activities packed into a small space. Toddlers will step up and be welcomed by an assortment of activity panels. Children will be introduced to geometry with the shapes activity panel. This adds an educational element to playtime, great for schools and daycares! The Chickadee Chime activity panel adds the element of music, which is also essential to childhood development. Kids can climb up to the second deck and observe their environment through the bubble panel: fitting for a daisy-themed playset! Or they can go down the slide! The Daisy Infant Play Center provides a lot of play opportunities for little ones: educational, musical, sensory, and fun! It is a great option for those who have minimal space.
