**Assembled Dimensions:** 139" x 33" x 85"

**Capacity:** 5-10

**Use Zone:** 9'x18'

All aboard the Choo Choo Infant Play Center! Infants and toddlers love choo trains: the speed, the bells and whistles, and the science behind them keep little ones thinking. Children can step aboard the Choo Choo play space and pretend to be the conductor zooming down the train tracks. There's even a real brass bell that they can ring for more fun! There's room for up to ten passengers aboard this train-themed playset. Kids can also crawl their way through the attached three-foot peek-a-boo tunnel. Introduce these little engineers to climbing on the tot scrambler with handles. The main unit is constructed with two side panels and a train islander roof. These panels are designed with railroad-themed graphics as decoration. Toddlers will be excited to see the Choo Choo Infant Play Center at any daycare, school, or park!
