Adding the Kids Kitchen Shelf and Rack to your outdoor kitchen area will give kids ample space to store their various creations. The storage space provided by the Kids Kitchen Shelf and Rack makes it comparable to a traditional kitchen rack, and with it, kids will have no trouble envisioning themselves as classically-trained chefs, perhaps using the Kids Kitchen Shelf and Rack to allow their 'pies' and 'cakes' to cool off. The Kids Kitchen Shelf and Rack works intuitively when combined with other Nature of Early Play outdoor kitchen products, such as the Outdoor Wood fired Pizza Oven and the Stove. With these products combined, your little ones will have no trouble utilizing them to create memories and exercise their imaginations.
