A picture of the playset's namesake awaits young preschoolers who enter this structure! The Snowy Owl from Nature of Early Play contains so many play elements for children to enjoy, they will want to stay outside in the sunshine for the entire afternoon! Active little ones have the option of climbing up the crawl-thru panel, or pulling themselves into the top deck via the rock scrambler climber! Fun play panels await the little adventurers that are sure to encourage the development of important life skills! The gear panel helps fine tune dexterity and mechanical skills! Also, little ones can develop their taste of music and skill by creating a beautiful melody on the fun chime panel! Kids can also see far and wide from the top of the playset's deck via the bubble panel! When the fun is done, children can travel safely down to the ground on the double slide! The Snowy Owl from Nature of Early Play maximizes modest budgets and minimal spaces and brings the ultimate fun play experience for preschoolers!
