Kids will have so much fun playing in this extra large multi-rider bouncy firetruck! Age appropriate for preschoolers, the firetruck is decorated and designed to look realistic. Painted a bright and fiery red color, the structure also includes a design of a front bumper, metal tires, an engine name and number, and even a ladder on the side of the engine! There are two bright yellow steering wheels on the inside, on the passenger side and drivers side so that two kids can pretend to drive at the same time. There are also two windows in the front for children to see out of, as well as two windows on the side and an open back area. There are benches that allow children to safely sit while they bounce in this exciting play structure. This bouncy firetruck can accommodate anywhere from 1 to 4 children.
