ASTM F1487-17

CPSC PUB #325

As often as kids come across items they wish to hold onto over the course of the school day, they don't always have a great place to store them. Help kids discover the treasure of tidiness with the Kids Sorting Trays. Consisting of 3-6 compartments, which can be adjusted based on how many plastic dividers are present, each tray offers more than enough space for children to store their belongings. The Kids Sorting Trays are made from recycled, heavy-duty plastic, clear polycarbonate, and stainless steel, making the unit ideal for both indoor and outdoor classrooms. There's no shortage of different ways to utilize the Kids Sorting Trays, and kids in your classroom will relish the opportunity to have their own tray, thereby increasing their senses of individuality. By adding the Kids Sorting Trays to your classroom, you can keep everyone's belongings safe, secure, and organized.
