Age Group: 2 to 12 years

Capacity: 1

Fall Height: 48"

Footprint: 13' 4" x 3' 4"

Use Zone: 19' 4" x 13' 9"

COMPLIES With:

ASTM F1487-17

CPSC PUB #325

For kids on the playground, the highlight of their experience will surely involve playground slides. Darting from the summit of the slide down to the ground provides a thrill that few pieces of playground equipment can match. With the 4-foot Single Straight Hillside Roller Slide, their sliding experience can be taken to a new level, since, unlike conventional slides, this one features a series of stainless steel rollers that rotate individually as kids pass over them. Often, children find that the 4-foot Single Straight Hillside Roller Slide provides a faster sliding speed than traditional slides, yet with only a short distance between the summit and the ground, it remains a safe, secure slide on which kids can whoosh to the ground and have the time of their lives while doing so.
