Tires Required, not included

A staple of playgrounds big and small, the Classic Seesaw is unparalleled in its ability to facilitate cooperative, synergistic play. Able to accommodate up to eight seats, the Classic Seesaw can be customized to fit the needs of your playground. The importance of cooperative activities for children can't be understated; particularly in their formative years, kids thrive in social environments, and it's important to give them safe and fun activities that are conducive to healthy socialization. The Classic Seesaw does just that, and the more seats present, the more children can join in on the fun. Adding the Classic Seesaw doesn't simply make playgrounds more fun, it adds to them another layer of beneficial social interaction and active play, both of which are eminently beneficial to elementary-age children. Please note that this seesaw requires one rubber tire per seat, which you can source yourself or purchase from us.
