Keep your outdoor space neat, green, and tidy with the Jackson Trash Receptacle. With its 36-gallon capacity, the Jackson Trash Receptacle is more than capable of helping your park patrons take care of their trash in a responsible way. With its solid black powder coat paint finish, this trash receptacle will remain a staple of your park or outdoor space for years to come. Its welded steel frame makes it durable and able to withstand the outdoor elements like rain and snow, so no matter the environment, the Jackson Trash Receptacle will continue to do its job. Great for both recycling and regular trash containment, this trash receptacle will remain a steadfast element of your park or playground.
