SALE \$1,190.00

Highlights:

- Offers shade on sunny days
- Offers ground-level exploration
- Great alone or as part of a set
- Utilizes sturdy plastic

Age Group: 2 to 5 years

A natural part of any toy train set, the Infinity Express Tunnel is a creative way for children to play on and around a kid-sized train set. Crawl tunnels, of course, are a popular amenity on playgrounds, but few are as creatively-designed as the Infinity Express Tunnel. Its rounded interior allows kids to catch some shade on hot, sunny days, and to hang out with their friends on nearby train elements. The Infinity Express Tunnel can be used alone, but it's even more fun when used as part of a set with other Infinity Express amenities. Purchase all three, and the kids on your playground are sure to have a creative, fun-filled experience.
