CPSC PUB #325

ADA Compliant

Great for kids who are always on the move, Spartanburg provides numerous activities for children to engage in. This collection of play amenities is designed to stimulate kids' physical and mental energy using a wide array of play experiences. The round Pebble Climbers help connect the various aspects of Spartanburg, and can also serve as a resting place for kids to sit and observe their surroundings. The Overhead Straight Rung Horizontal Ladder and the Overhead Straight Swinging Ring Ladder both function similarly to monkey bars, allowing kids to climb horizontally from one end of the structure to the other. The pull up bars allow more acrobatic children to hoist themselves up to do pull ups, while the Parallel Bars offer further engagement of core and upper body muscles. There's no shortage of activities to engage in with Spartanburg.
