Footprint: 4' 2" x 8'

Use Zone: 20' x 16' 2"

COMPLIES With:

ASTM F1487-17

CPSC PUB #325

A thrilling piece of playground equipment, the Freestanding Pebble Sway Bridge delivers fun and excitement to all kids who use it. Far from simply crossing from one side to the other, children are challenged to carefully step from pebble to pebble as they sway to and fro. The pebbles each feature raised studs that function as treading and lowers the odds of falling down to the ground. By grabbing the steel rods that hold up the pebbles, children can remain stable while traversing the pebble bridge. The Freestanding Pebble Sway Bridge is supported by galvanized steel beams that anchor it into the ground and allow it to remain steady even as the pebbles sway. This bridge is great as a standalone unit or when serving as a bridge between two pieces of equipment.
