COMPLIES With:

ASTM F1487-17

CPSC PUB #325

ADA Compliant

Lucas' Loft is a thrilling play structure that kids on the playground will love. Toddlers are an often-overlooked age group when it comes to playground equipment, but it's important that these children have the tools they need to have fun on the playground. For instance, the Drum Panel, the Bench Panel, and the Elephant Panel are all located at the ground level of Lucas' Loft, and offer unique flavors of excitement. With a short step up, kids can access the ever-so-slightly elevated portion of Lucas' Loft, which features a Tic Tac Toe Panel as well as a Gear Panel. Both serve as exciting accouterments to the rest of Lucas' Loft, along with the Incline Tube Bridge, which little ones can crawl through or stay under its shade. There's no shortage of ways for toddlers to get active with Lucas' Loft.
