Fall Height: 12"

Use Zone: 13' 3" x 13' 3"

COMPLIES With:

ASTM F1487-17

CPSC PUB #325

The Whizzy Dizzy Play Spinner is a compact and unique piece of play equipment that functions as a freestanding spinning platform. Unlike traditional spinning equipment such as merry-go-rounds, which can be large and bulky, the Whizzy Dizzy is relatively lightweight and easy for just one person to use. The user simply puts one foot on the round platform and uses the other to push off the ground, and momentum will keep kids spinning around until they get dizzy. Luckily, the three easy-grip handrails will allow children to keep hold of something if they start to stumble after playing on the Whizzy Dizzy. With the help of a friend, kids can continue spinning for minutes at a time, and in doing so, experience the thrill of a lifetime either alone or with a friend.
