The Half Dome Plastic Playground Climber features a Tortoise panel climbing wall and two vertical ladders. Children use the hand and foot holes in the Tortoise climbing panels to climb up and over the playground climber. They also have the option to utilize the vertical climbing ladders to make their way to the top of the massive 10-foot tall climber. The Half Dome Plastic Playground Climber is a great addition to any playground. It is unique in design and children are drawn to the distinctive Tortoise panels. Children stay entertained for hours as they play outdoors while getting a good work out during their playtime. This playground climber is built with safety in mind, and Sii follows all regulations laid out for commercial playground equipment. This durable playground climber is built to tolerate high use at busy parks and playgrounds.
