SALE \$5,279.00

Age Group: 5 to 12 years

Footprint: 11' 9" long x 12' 3" wide x 3' 1" high

Use Zone: 23' 9" x 24' 3"

The Hump Plastic Climber is a fun playground climber that is designed to look like a tortoise shell. The fun and popular Tortoise climbing panels are connected to form a dome-like shape with a hole at the top for children to be able to climb in and out of. Triangles shaped spaces at the bottom of the climber create fun entry and exit points a child can crawl under. Multiple hand and foot holes are set into the Tortoise panels that make it easy for little hands and feet use for climbing all around the Hump Plastic Climber. This playground climber is ideal for younger kids to play on; the tallest height it reaches is 3.1 feet, making it safe for even the newest climbers. The unit is intended for concrete fortified in-ground mounting, which is required to meet ASTM and CPSC playground safety guidelines.
