ASTM F1487-17

CPSC PUB #325

This junior playground climber is a great addition to playground that are low on space including, daycare centers, preschools, and public neighborhood parks. The Junior Single Panel Climber is composed of two sturdy posts that hold up the single climbing panel. The unit is only 5 feet in height, which makes it an excellent piece of playground equipment to learn to climb. The climbing panel has oval shaped foot and handholds designed to make the climbing manageable for all children 2-12 years old. Kids are entertained by this play equipment and develop stronger muscles as they master its 5-foot climb. This commercial playground equipment meets playground safety guidelines. It is designed for a long life of heavy play, and its polyethylene panels can withstand many years of intense use.
