This commercial use playground climber is designed to meet all ASTM and CPSC playground safety requirements. Heavy use is no problem for the Mini Arch Plastic Climber; it is built to last with high quality rotationally molded materials that resist fading and wear. This playground climber is an ideal addition to any playground or park. It will provide many years of fun play for kids aged 5-12. This playground equipment is a great way for kids to play and exercise, they are sure to burn off lots of energy as they climb and play. Playing on this climber helps develop muscles all over the body including arms, legs, abdominals, and back muscles; this climber provides a full body work out during playtime. The Tortoise climbing panels are equipped with hand and foot holds designed to for easy gripping and safe climbing.
