The Freestanding 90 Degree Trapeze Ring playground equipment is an entertaining way for a child to work out while playing in the outdoors. Physical activity plays an important role in the life of a child, this overhead climber provides an enjoyable way to build muscles and improve hand-eye coordination during playtime. The trapeze rings allow the child to swing along the path from one ring to the other, mastering timing skills that help to improve a youths overall athleticism. This freestanding playground equipment can also be combined with other equipment to create a larger play system. The trapeze rings are attached to the frame with strong hangers that adhere to commercial playground safety guidelines. The sturdy, safe, and reliable climber's frame is made up powder-coated steel, and the trapeze ring handles are composed of sturdy, highly polished aluminum.
