The Freestanding 90 Degree Tri-Rung is a confidence builder, as a child masters the triangle shaped rungs they test their skills and increase their strength. Every time children challenge themselves on this playground equipment, they are developing physical and mental skills that will benefit them for a lifetime. Climbing ladders on either end of the climber help kids reach the triangle-shaped rungs. The upright pole in the center of the triangle-shaped monkey bars is used for support of the 90-degree turn. The Freestanding 90 Degree Tri-Rung is designed to handle busy playgrounds and parks, it is fade and deterioration resistant and designed to last for many years making it an idea addition to any recreation and play area.
