Use Zone: 16' 4" x 22' 4"

COMPLIES With:

ASTM F1487-17

CPSC PUB #325

The Freestanding Double Parallel Bars overhead playground equipment is a twist on a traditional monkey bar system; it differs because it exchanges the ladder-like rungs with two parallel bars running the length of the climber. Kids love playing on this fun playground equipment, and parents love the physical fitness benefits their child gets from playing. Two side ladders make reaching the parallel bars easy. As the child pulls their bodies across, they are building upper body strength while improving hand-eye coordination. Sii brand playground equipment is manufactured with safety and durability in mind; each product is made with the highest quality products and strictly follows guidelines for commercial playground equipment. The Freestanding Double Parallel Bars overhead climber is an essential playground climber to have at any playground.
