MSRP \$5,943.00

SALE \$5,052.00

Age Group: 5 to 12 years

Footprint: 4' 4" long x 10' 4" wide x 7' high

Use Zone: 16' 4" x 22' 4"

The Freestanding Three Wheel Swinger is a great addition to any park, school, or playground. This overhead climber is for use by children from age 5-12. Children really enjoy the added fun that the overhead spinning wheels add to this playground climber; they will love testing their endurance, timing, and athletic skills. This unit follows playground safety guidelines for commercial playground equipment and is extremely safe and durable. Each of the three wheels is connected to the top bar of the galvanized metal frame securely and spins a full 360-degrees. Because the wheels spin 360-degrees this playground climber requires coordination, timing, and strength; each of these skills is honed in as a child masters the challenge of getting across. The Freestanding Three Wheel Swinger comes with extended length posts for in-ground mount and concrete fortification to ensure stability.
