**Use Zone:** No use zone required.

### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

Simple Bongo Drums offers music to a playground at a fraction of the traditional investment. The design takes into account children's innate joy of drumming to create music which makes it a winning piece of equipment for most kids. Factoring in the need for children to develop both fine and gross motor skills, the drums encourage creative thinking that works large and small muscle groups. Kiddos will have no issues creating notes that are clear and crisp. Music has a way of bringing people together and the Simple Bongo Drums are no different. Two kids can collaborate and start a jam session that will encourage experimentation and build lasting friendships. Youngsters will march to their own beat while playing on this rhythmic instrument.
