### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

Nobody makes bumbling along more fun than Bumbling Betsy Fun Bounce. A SunGlow Yellow bumblebee with Brick Red powder coat painted galvanized steel antenna, Betsy is ready to spring away to fun. Being a long bumblebee by nature, she is able to carry up to two passengers at a time; doubling the number of children getting to ride at once. Both the front and rear seats have secure handholds with molded footrests to give children a secure place to ride. As she can handle double the weight, she utilizes a black powder-coat painted spring to carry her riders safely. Bumbling Betsy is just one of a number of adorable animal themed spring riders that we offer. She'll be lonely by herself, so take the time to pick out a friend or two to be her pals on the playground.
